NEW UNIQUE LINE OF CHILDREN'S CARDS

Wink, Wink™
the card with feelings
Appropriate for ages 8-13

Why another card for children? Well, these are not just another set of cards. This unique line of cards was designed out of the necessity to help my son deal with punishment following frequent temper tantrums. Wink, Wink™ cards were originally a sheet of paper my son had scribbled a few words then thrown it down the stairs.

Cards are designed for parents or caregivers to purchase for children. Children then select feelings and emotions from several choices then deliver the card back to caregiver. Cards help open up discussions of feelings and emotions children may be unable to express.

After my son illustrated the cards, we discussed how they should be used and placed a few packages in his room. Eventually after my son was sent to his room as a punishment, I would see a card laying at the bottom of the stairs. Of course the first few cards told me how awful I was, but eventually he circled items of how he was feeling, which allowed me the opportunity to enter his room and talk about what was really bothering him. *The cards became a signal for me to know when the, "time out in his room," had worked.*

Topics include: Help, I'm Sorry, Just Because and Something Happened!

The cards may be downloaded immediately after purchase. Simply open the provided link and print. Once all 4 cards are printed simply fold them in half 2 times to make a card. Package the cards in a large envelope or simply tie them together with a ribbon and include a pen or pencil.

To Order the Entire Set of 4 Different Cards:

Visit www.rebeccaburns.com to immediately download for just \$3.99.
*You may also receive cards pre-printed on card stock paper (includes envelopes)
for additional costs as well as journals especially for kids.*

*Love & Peace,
Rebecca J. Burns*
